---

By McFarland, David.

Oxford. 1 Paperback(s), 2009. soft. Book Condition: New. When we interact with animals, we intuitively read thoughts and feelings into their expressions and actions; it is easy often irresistible to suppose that they have minds like ours. And as technology grows more sophisticated, posits animal behaviorist and biological robotics expert David McFarland, we might soon find ourselves interpreting the behavior even of robots in human terms. But is our natural tendency to humanize other beings philosophically or scientifically justifiable? McFarland offers an accessible exploration of these and other intriguing questions, illuminating our understanding of the human mind and its limits in knowing and imagining other minds. 252.
