Not illustrated. 1881 Excerpt: .myself passed through various portions of the State, by boat, by rail, and by stage, I can confidently say that neither of the above conceptions of it are perfectly correct, though the latter view makes the nearer approach to the reality. Florida is truly speaking a brighter and cheerier edition of East and South New Jersey. It is too, mostly a plain, and is largely covered with pine forest; but the plain occasionally rises, and breaks into a waved surface and the pines are often tall noble trees that standing widely apart, allow an abundance of sunlight to reach the flower carpeted ground beneath them, producing on an early spring day a wonderfully happy scene, and equally happy effects on the observer. Along the borders of streams, encircling lakes, marshes and innumerable dark pools of water where the ground is slightly depressed, a richer vegetation obtains, which is mostly deciduous, although the magnolia, the wild orange, the evergreen oak, and the palmetto, together with many species of tall shrubs mostly belonging to the order Ericaceae, are well represented. These last--the shrubs--during the months of March, April and May, are covered with exquisite bell-shaped flowers, which, however, excepting in one or two instances, are not especially conspicuous. The adjective that I have used to describe the appearance of these higher heathers says a good deal, but it wants squeezing a bit, or strongly emphasizing, to bring it up to the point of fairly covering the delicious sensations...
