Today's Operational Challenge: Defining Victory in Operations Short of War

By Walter Wojdakowski

Biblioscholar Nov 2012, 2012. Taschenbuch. Book Condition: Neu. 246x189x3 mm. This item is printed on demand - Print on Demand Neuware - Operations short of war, which are often dangerous and challenging, are a big concern for today's Armed Forces. Also important is the study of operational art. The linkage between these two concepts, not yet fully developed, is critical. Defining victory, perhaps the most complex problem with the linkage, is the subject of this study. This analysis centers on the three essential questions of operational art in FM 100-5, Operations. These questions define victory for the operational commander. They are: (1) What military condition must be produced in the theater of war or theater of operations to achieve the strategic goal (2) What sequence of actions is most likely to produce that condition (3) How should the resources of the force be applied to accomplish that sequence of actions The questions are probed using the strategic-operational, military-civilian and operational-tactical interfaces. These affect the definition of victory in operations short of war. Each interface is analyzed considering its affect on the questions mentioned above. The paper is conceptual. No specific campaign is studied, but a variety of examples from recent...
