Excerpt: . . . 11 We want to use the technology to make our office visit minutes more meaningful, not to strip additional minutes off of an office visit that is already too short. Medicare and private sector health insurers are complicit in keeping us in a paper-based system. Pri-vate insurances and Medicare constantly expect us to deliver more care for less money. For one of my insurers, global fee for prenatal care is only 1, 200, which includes the delivery, the care, and 60 days postpartum care. Medicare is slated to cut physician payment by 10 percent in 2008, and 40 percent over the next eight years. As the rates continue to be cut from all angles, it can be difficult for many practices to justify an investment in health information tech-nology. I am a firm believer in the enormous potential of health informa-tion technology, but leadership from the Federal Government spearheaded by this Subcommittee is necessary to make it possible for small and rural physicians. Thank you for holding this important hearing and striving to help small practices provide the best care to their patients. The prepared statement of Dr. Kelley may be found in the Ap-pendix on page 53. A LEZ. ONZ ChairmanG Thank you very much, Dr. Kelley. Dr. Shober STATEMENT OF DAVID R. SHOBER, D.
