International Financial Reporting Standards have been mandatory in the EU since 2005 and are rapidly being adopted by countries throughout the world. Part two contains the main technical content of the book and provides an analysis of the main issues under IFRS reporting, including: The content of financial statements, Investments in other companies, Income Statement and Balance Sheet items, IFRS for SMEs, and A comparison with US GAAP. Part three covers the creation of the IFRS, provides details of the IASB's standard-setting process, and describes how people outside the IASB can participate in the process and lobby effectively. It also examines the history of the IASB, and includes a chapter based on the author's observation of the standard setters in action.
