

External Reference Pricing in Pharmaceutical Industry

By Francis Marete

GRIN Verlag GmbH Sep 2014, 2014. Taschenbuch. Book Condition: Neu. 211x149x7 mm. This item is printed on demand - Print on Demand Neuware - Seminar paper from the year 2012 in the subject Business economics - Marketing, Corporate Communication, CRM, Market Research, Social Media, grade: B, Stanford University, language: English, abstract: In the marketing practice, marketers largely focus on four key elements that include the product itself, the price of the product, the place, or the location where the product or service is made available for the customers and the promotional activities that are geared towards creating awareness of the product and informing the target audience about its unique attributes. In all of the four marketing elements, it is only price, which is revenue generating and it plays a crucial role in ensuring that a particular product or service sales in large volumes thereby making a company more profitable. In the determination of price, various factors come into play and they include cost of producing the product or delivering the service, the economic condition of the target market, competition level in the market, the brand name of the product/ service, and the quality of the product/ service (Baines et al....

Reviews

An exceptional pdf and also the typeface applied was intriguing to read through. It is definitely simplified but excitement in the 50 % in the ebook. I discovered this ebook from my dad and i recommended this pdf to find out.

-- Jarod Ward

Complete information for publication enthusiasts. It is really basic but shocks inside the fifty percent of your book. I am just delighted to let you know that this is basically the finest book i have read through in my individual lifestyle and might be the best pdf for actually.
