Pub Date :2000-02 Pages: 319 Publisher: Education Science Press Introduction activities education is a kind of deep influences ideological foundation and extensive practice impact theory advocates. Activities in education and other education advocates fundamental difference is that campaigns to educate the children's activities closely with the development of children linked to that activity is the basis of human survival and development of children's development than external imposed. but through the main practice activities active implementation. education. teaching basic task is to design. construct. organize all kinds of activities to meet the development needs of children in the children's active participation in the main activities into teaching goals. thus achieving children's overall development. The purpose of writing this book is that the education system activities to construct a complete theory. but according to the actual needs of the current research in this field. to focus on selected some people are more concerned about the issues to discuss. in order for the research in this area do a bit of information and theoretical preparation. To this end. the book focuses...
