A Short Treatise on the Principles of the Differential and Integral Calculus [By B. Powell].
A SHORT TREATISE ON THE PRINCIPLES OF THE DIFFERENTIAL AND INTEGRAL CALCULUS [BY B. POWELL].

BADEN POWELL

Filesize: 4.15 MB

Reviews

This ebook is worth acquiring. It is rally fascinating throgh looking at period of time. I am quickly could get a pleasure of reading a created pdf.

A SHORT TREATISE ON THE PRINCIPLES OF THE DIFFERENTIAL AND INTEGRAL CALCULUS [BY B. POWELL].

Not Avail, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1829 Excerpt: .n2 is n3, we have (i.yy V dx2) n? Differentiating now the equation =-we shall find d2y ndm--mdn dx--n2 and dividing the first side of this equation by dx, and the second by n, which is equivalent to dx, we shall have d y ndm--mdn dx2 n3 By means of these values given by the two last equations, the expression for the radius of curvature becomes, (m + n V y-- --. ndm--mdn and we have now only to transform this equation into a function of 8 and r; for which purpose we must determine first the value of n2 + m , by adding the squares of the value of m and n, and reducing by means of the equation sin. fl + cos. fll; when we shall find n2 + m2 = dr2 + r2 dQ2. To obtain the denominator of the equation for y, we must differentiate successively the equations for m and n, considering dQ as constant; and multiplying the results by n and m respectively, we shall find ndm--nd2r sin. 8 + 2ndr cos. 8d8--nr sin. 8d8 , mdn = md2r cos. 8--2mdr sin. 8d6--mr cos. 8d82, whence, subtracting the second equation from the first, we have ndm--mdn = d2r n sin. 8--m cos. 8) + 2drd8 (n cos. 8 + m sin. 8)--rd82 (n sin. 8--m cos. 8) Now, multiplying the first of the equations for m and n, by cos. 8, and the second by sin. 8, subtracting...
